Professional Profile

Software engineer passionate about technology and teamwork. I am motivated to participate in multidisciplinary projects, contribute creative solutions, and continue to grow both technically and personally.

Professional Experience

- **ICT Technician — Private Industrial Safety Center**   *12/2024 – 02/2025*
  - I acted as the first point of contact for users during the digitization of the internal system, resolving access and navigation issues.
  - I registered and managed credentials to ensure that employees could access their documentation remotely.
  - I documented basic procedures to reduce repetitive user queries.

- **Front Developer— Escuela Superior Politécnica de Chimborazo (Ecuador):**   *09/2023 – 02/2024*
  - Developed and implemented the financial report generation module, optimizing data extraction through complex SQL queries.
  - Performed corrective maintenance and code refactoring in the Policy System, improving the stability of service integrations.
  - I ran data integrity diagnostics directly on the database to resolve critical inconsistencies in administrative reports.

- **FullStack Developer— "Pharmacity" Private Pharmacy (Ecuador)**:   *03/2023 – 08/2023*
  - Designed and developed a comprehensive Pharmaceutical Management System from scratch, automating inventory control, billing, and user management.
  - I implemented business logic for role and permission management, ensuring the security of sensitive information.
  - I significantly reduced counter service times by optimizing the workflow of the delivered software.

Languages

- Spanish – Nativ3
- English - B2

Skills

- Tools: Angular v16+, NodeJs, Tailwind CSS, SQL Server, PostgreSQL, Git, Postman, Microsoft 365, and Azure.
- Customer service and effective communication.
- Analytical skills and technical documentation.
- Teamwork and adaptability.
